

MIDNIGHT SUN TECHNOLOGIES, LLC (Midnight Sun) is a professional services firm providing tailored solutions to our customers to ensure mission success. Through successful program execution we have developed the internal procedures, training programs, quality management, and systems to meet complex requirements. Our proven management team has the experience and skills to clarify a stakeholders’ needs and add value. We continuously pursue improvement and customer service—always bringing a great sense of duty and accountability to our customers.

As a subsidiary of an Alaska Native Corporation (ANC), Kikitagruk Inupiat Corporation, we leverage the back office and financial strength of our parent corporation while remaining a small and agile company that is able to quickly respond to changing markets, technologies, and customer needs. This support also provides greater reach in our recruiting, employee benefits, training, payroll, accounting, technology, and other support functions, which ensures the most highly-qualified professionals are assigned to a program.

ANC Advantage: as an Alaska Native Corporation 8(a), Midnight Sun may receive direct awards from Civilian agencies up to \$25 Million and DoD agencies up to \$100 Million without justification (and unlimited with justification). ANC sole source procurements are non-protestable (13 CFR 124.517), provide greater transparency in price negotiations and reduce procurement timelines.
