

MIDNIGHT SUN PROFESSIONAL SOLUTIONS, LLC (Midnight Sun) is an 8(a) professional services firm providing tailored solutions to our customers to ensure mission success. Through successful program execution we have developed the internal procedures, training programs, quality management, and systems to meet complex requirements. Our proven management team has the experience and skills to clarify stakeholder needs and add value. We continuously pursue improvement and customer service—always bringing a great sense of duty and accountability to our customers.

As a subsidiary of an Alaska Native Corporation (ANC), Kikiktagruk Inupiat Corporation in our Professional Services Business Unit, we leverage the back office and financial strength of our parent corporation while remaining a small, agile company that is able to quickly respond to changing markets, technologies, and customer needs. Additionally, Midnight Sun has developed and implemented a programmatic infrastructure which includes a dedicated program office; proven program tools and resources; and streamlined processes for efficient recruiting and onboarding. This also includes a formalized framework built on our ISO 9001:2015 Quality Management Systems; ISO 20000-1:2018 IT Services Management; ISO 27001:2022 Information Security Management System; and, ISO 31000-1:2018 Risk Management certifications. These certifications provide a high-quality ISO framework for success that ensures an intentional best practices approach to service and reduces customer risk.

ANC Advantage: Midnight Sun may receive 8(a) direct awards from Civilian agencies up to \$25 Million and DoD agencies up to \$100 Million without justification (and unlimited with justification). ANC sole source procurements are non-protestable (13 CFR 124.517), provide greater transparency in price negotiations and reduce procurement timelines.
